**EXPLANATION**—The method here adopted is by dividing the Plan into Squares, with Letters at the top and bottom to correspond, and also Figures down the sides. It is therefore necessary, first, to find the place required in this Index, to which are annexed the Letter and Figure of the Square in which it is contained; when, on reference to the Plan, it will be instantly found.

Example: Required St. Paul's Church-yard. On reference to the Index, it is found to be I 8, then on the Plan at the top or bottom find the letter I, and on either side find the figure 8, the place required must consequently be in the Square I 8.

\* \* Those lines marked in Italic refer solely to the Western portion of the Map. The Map is divided into half-mile squares.
